OPTION B: ASK AI FOR A GAME

The AI designs a game. You play it in the room.

1. Fill in the blanks in the box below.
2. Take a photo of the box, upload it to any AI chatbot, and type:

> 📸 **"Recommend a game using this. Start now."**

3. Pick one of the two games it suggests, and play it.
4. After round 1, ask the AI: **"How can we make round 2 harder or better?"** Then play again.

TO THE AI: Recommend a game our group can play right now to practice a work skill.

Skill we want to practice: _____

Tone (circle one): SERIOUS PLAYFUL ABSURD

Players: _____ people · **Time:** about 5 minutes per round

What we have: _____

_____

_____

Please avoid: _____

e.g., running, sitting on the floor

Give us 2 game options. For each: a name, setup in under 1 minute, the rules in 5 short bullet points, and how it connects to our skill. After we pick one, act as our referee: keep us on track, and at the end ask us 2 reflection questions.

Before you leave the game: write on a sticky note, "One thing from this game I could use with my team..." and bring it to the debrief.
